

Baillie Gifford Long Term Global Growth Equity Fund

Second Quarter 2022

Fund Objective

To produce capital growth over the very long term by investing primarily in global equities. Performance will be measured against the MSCI ACWI Index.

Investment Proposition

The Fund is a purely stock-driven, unconstrained global equity Fund focused on investing in exceptional growth companies from around the world. The approach is committed and expressly long term because we believe that investing in companies with the scope to grow to multiples of their current size over the next decade has the potential to transform the returns achieved for investors over time.

Portfolio holding sizes are based purely on our view of the magnitude of the potential upside and our associated level of conviction. The turnover in the portfolio aims to be low, reflecting our long-term perspective and resistance to trading on short-term news flow.

We look to embrace volatility that often results from the obsession with managing short-term volatility in the broader market, as it can provide opportunities for us to invest in companies with great long-term growth prospects at opportune prices.
