Baillie Gifford Worldwide Diversified Return Fund - Class B EUR Accumulation Hedged

Accumulation Shares - ISIN IE000ULJF344

Baillie Gifford Worldwide Diversified Return Fund ("the Fund") is a sub-fund of Baillie Gifford Worldwide Funds PLC (the Company). The Fund is managed by Baillie Gifford Investment Management (Europe) Limited.

Objectives and investment policy

Objective

- The Fund aims to provide capital growth over the long-term at a level of risk lower than investment in shares of companies.

Policy

- The Fund invests in a variety of asset classes, either directly or indirectly or through other funds.
- The asset classes include, but are not limited to, shares, bonds, property, infrastructure, commodities, and currencies.
- Investment may be in transferable securities (such as bonds and shares), other funds, derivatives, money market instruments, cash and near cash.
- Currency forwards and derivatives, which are types of financial contracts, may be used to protect or increase the value of the Fund. This means the Fund is exposed to foreign currencies.
- The Fund is actively managed and no index is used for the purposes of determining or constraining the composition of the Fund's portfolio. The Fund's performance (after deduction of costs) is measured against the US Federal Funds Rate. The Fund seeks to materially outperform the benchmark.

Other Information

- This hedged share class aims to remove the currency exposure between the currency of the share class and that of the majority of the underlying assets of the Fund.
- Bonds are a type of investment which can be issued by governments, companies and other organisations when they want to borrow money. The issuer of the bond owes the holder a debt. The issuer is obliged to pay interest and/or repay the debt at a later date.
- You can sell some or all of your shares on any day on which banks in Ireland are open for business by contacting the Transfer Agent by phone or post.
- Income will be re-invested. No further shares will be purchased but the reinvestment will be reflected in the price of your existing accumulation shares.
- For further explanation and information see the investment objective and policy section of the Prospectus, which is available by contacting us.
- Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within five years.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

- Market conditions can change rapidly and a fund in any rank can lose you your investment. The Fund is classified as above as it invests in a range of assets.
- As returns are not available for all of the past five years we've used the Fund's sector in their place to calculate the indicator.
- The indicator does not take into account the following relevant material risks.
- Hedged share classes do not remove all currency risk.
- The Fund aims to limit losses in any short term period to a lower level than equities. Neither this nor positive returns are guaranteed.
- Bonds are affected by interest rates and inflation trends which may affect the value of the Fund. They could lose value if the issuer's financial health deteriorates.
- Derivatives can magnify losses if the underlying asset does not perform as the manager expects.
- Investing in China may harm your investment due to difficulties with market volatility, political and economic instability including the risk of market shutdown, trading, liquidity, settlement, corporate governance, regulation, legislation and taxation.
- In adverse market conditions it may be difficult to sell investments held by the fund in a timely manner and their value may fall significantly. This could affect how much money you receive and even delay the selling of your shares if dealing in the Fund is suspended.
- Custody of assets involves a risk of loss if a custodian becomes insolvent

or breaches duties of care.

- You could lose your investment due to global factors like natural disasters, pandemics, or through developments such as military conflict, or changes in government policies.
- For a more detailed explanation of the risks, please see the "Risk Factors" section of the prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	0.00%
Exit charge	0.00%
This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing charges	0.91%
Charges taken from the fund under certain specific conditions	
Performance fee	NONE

- The ongoing charges figure is based on the last year's expenses and may vary from year to year. It excludes the costs of buying or selling assets for the Fund (unless these assets are shares of another fund).
- For the ongoing charges, the figure is as at 30/09/2023.
- The Fund's annual report for each financial year will include detail on the exact charges made.
- You can find further details about the charges in the fees and expenses section of the Prospectus, which is available at www.bailliegifford.com.
