**What is this product?**

**Type**

Baillie Gifford Worldwide Discovery Fund ("the Fund") is a sub-fund of Baillie Gifford Worldwide Funds PLC (the Company). The Fund is managed by Baillie Gifford Investment Management (Europe) Limited. The Company is an open-ended investment company with variable capital organised under the laws of Ireland as a public limited company pursuant to the Companies Acts and the UCITS Regulations and is managed by the Manager.

**Term**

The Fund does not have a fixed maturity. All the shares in the Fund may be redeemed by the Company in certain circumstances details of which are outlined in the Prospectus including if so determined by the Directors of the Company, following consultation with the Manager. As such, the Manager may not unilaterally terminate the Fund.

**Objectives**

The Fund aims to produce attractive returns, mainly through capital growth, over the long term. The Fund invests mainly in shares of companies worldwide which we consider offer excellent future growth prospects. The Fund will invest in shares of companies in any country and in any sector which typically at the time of initial purchase have a market capitalisation of US\$10 billion or less. The Fund applies a revenue-based screen that excludes companies with a defined level of activity in certain sectors, details of which are disclosed in the Prospectus. The Fund will comply with the Investment Managers policy on assessing breaches of the United Nations Global Compact Principles for Business. The Fund is actively managed and no index is used for the purposes of determining or constraining the composition of the Fund's portfolio. The Fund's performance (after deduction of costs) should be measured against the MSCI All Country Small Cap Index for illustrative purposes only. The Fund seeks to materially outperform the index. The return of the Fund is dependent on the performance of the underlying assets. Any income due to you will be paid into your bank or building society account, paid on the dates specified in the Prospectus. You can sell some or all of your shares on any day on which banks in Ireland are open for business by contacting the Transfer Agent by phone or post. The Fund's assets are held through the Company's Depositary, which is Brown Brothers Harriman Trustee Services (Ireland) Limited. To obtain further and other practical information, including prices, and documentation please see the Other Relevant Information section of this document. This Key Information Document describes the Fund only, the Prospectus and the annual and interim reports and accounts are prepared for the Company rather than the Fund. The assets of the Fund are segregated from other funds in the Company. This means that the assets of one fund cannot be used to meet the liabilities of another fund. You may at any time switch all or some of your shares in the Fund for shares in any other fund of the Company and may obtain further information about this from the conversion of shares section of the Prospectus.

**Intended retail investor**

The Fund is suitable for all investors seeking a fund that aims to deliver capital growth over a long-term investment horizon by investing in companies focused on sustainable value creation. The Fund integrates the consideration of environmental, social and governance matters as part of the investment process through the use of qualitative analysis and quantitative screens. The investor should be prepared to bear losses. The Fund is compatible for mass market distribution. The Fund may not be suitable for investors who are concerned about short-term volatility and performance, seeking a regular source of income and investing for less than five years. The Fund does not offer capital protection.

**What are the risks and what could I get in return?**

**Risk Indicator**

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

The risk indicator assumes you keep the product for a minimum of 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

We have classified this product as 6 out of 7, which is the second-highest risk class.

This rates the potential losses from future performance at a high level, and poor market conditions are very likely to impact the capacity of Baillie Gifford Investment Management (Europe) Limited to pay you.

**Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.**

The concentrated portfolio, exposure to smaller, immature companies and foreign currencies may increase risk. Charges are taken from income; if expenses exceed income the capital value falls.

This product does not include any protection from future market performance so you could lose some or all of your investment.

## Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

**What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.**

**The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.**
