Baillie Gifford Worldwide Global Alpha Fund

A sub-fund of the Baillie Gifford Worldwide Funds PLC

First Quarter 2024

Fund Aims

The Fund invests in an actively managed portfolio of stocks from around the world with the intention of delivering significantly higher total returns than the MSCI ACWI Index. We focus on companies which we believe offer above average profit growth and we invest with a long-term (5 year) perspective. The Fund's three dedicated investment managers draw on a combination of their own investment ideas and those of our various investment teams to produce a portfolio that typically holds 70-120 stocks.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Please note that even the lowest risk class can lose you money and that extreme adverse market circumstances can mean you suffer severe losses in all cases.

The Fund is classified in the category above because it invests in company shares which generally provide higher rewards and higher risks than other investments such as bonds or cash.
