### Top 19 Sector Positions (%) - 19 in Total

### Proposition

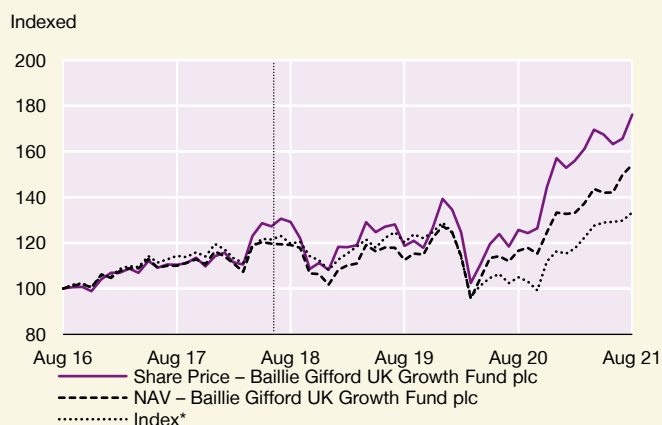

The Trust aims to achieve capital growth predominantly from investment in UK listed equities, with the aim of providing a total return in excess of the FTSE All-Share Index. Investments are made with a five year investment horizon and the portfolio is relatively concentrated with between 35 - 65 companies. 10% of the total asset value of Trust can be invested, at the time of initial investment, in private companies. Sector and industry weightings are a consequence of the index agnostic approach to stock selection. The portfolio does not seek to track or mirror the benchmark, hence a degree of volatility against it is inevitable. The yield on the Trust's investments is of secondary importance.

### Top Ten Holdings

Holdings	% of Total Assets
1 Genus	4.9
2 St. James's Place	4.4
3 Volusion Group	4.3
4 Ashtead	3.5
5 Howden Joinery	3.5
6 Auto Trader	3.5
7 Abcam	3.4
8 Renishaw	3.3
9 Games Workshop	3.2
10 Draper Esprit	3.0
<b>Total</b>	<b>37.0</b>

Total may not sum due to rounding.

### Performance

### Periodic Performance (%)

	1 Year	3 Years	5 Years	10 Years
Share Price	40.1	36.3	76.2	168.0
NAV	32.3	29.5	54.2	153.5
Index*	26.9	11.4	33.3	110.2

### Discrete Performance (%)

	30/06/16-30/06/17	30/06/17-30/06/18	30/06/18-30/06/19	30/06/19-30/06/20	30/06/20-30/06/21
Share Price	19.3	16.5	-0.2	-2.5	31.7
NAV	15.8	9.6	-1.4	-3.2	24.3
Index*	18.1	9.0	0.6	-13.0	21.5

\*FTSE All-Share Index.

The line at 30 June 2018 represents the appointment of Baillie Gifford & Co Limited as Managers and Company Secretaries.

## Additional Trust Information

Full product details, including a Key Investor Document, the possible effect of charges on an investment, are available on request, please see below for contact details.

In this document all references to NAV and NAV performance are calculated with borrowings deducted at fair value. Borrowings at fair value is borrowings (if any) at an estimate of their market worth.

All performance figures are in sterling terms, total return – that is, with any dividends reinvested. The graph represents five years' performance, to the date at the top of the document, and has been indexed to start at 100 (this aids comparison and is not a reflection of actual values at any given date). The discrete performance table is updated quarterly.

Gearing is calculated according to Association of Investment Companies (AIC) guidelines. The potential gearing figure reflects the amount of borrowings drawn expressed as a percentage of shareholders' funds. The invested gearing figure reflects the amount of borrowings at par less cash and cash equivalents actively invested, expressed as a percentage of shareholders' funds. The invested gearing figure may be negative where cash and cash equivalents exceed the value of borrowings at par.

Active share, a measure of how actively a portfolio is managed, is the percentage of the portfolio that differs from its comparative index. It is calculated by deducting from 100 the percentage of the portfolio that overlaps with the comparative index. An active share of 100 indicates no overlap with the comparative index and an active share of zero indicates a portfolio that tracks the comparative index.

Annual turnover is reported from the preceding financial year end to the date shown and is calculated by dividing sales by the average of the opening and closing investment portfolio on an annualised basis.

A negative cash position may sometimes occur due to obligations awaiting settlement.

Baillie Gifford & Co Limited's annual remuneration is 0.5% of net assets, with no additional performance fee. The management agreement provides for a six months' notice period.

The ongoing charges figure represents the total operating costs of the Trust divided by the average net assets (with debt at fair value) as disclosed in the most recently published Annual Report.

## Further Information

This factsheet is issued by Baillie Gifford & Co (Financial Services Register 142597), Calton Square, 1 Greenside Row, Edinburgh EH1 3AN. Baillie Gifford group provides the following services to the Trust. Baillie Gifford & Co Limited (Financial Services Register 119179) is the manager and secretary of the Trust, and it delegates portfolio management to Baillie Gifford & Co. Both firms are authorised and regulated by the Financial Conduct Authority of 12 Endeavour Square, Stratford, E20 1JN.

## Target Market

The Trust is suitable for all investors seeking a fund that aims to deliver capital growth over a long-term investment horizon. The investor should be prepared to bear losses. The Trust is compatible for mass market distribution. The Trust may not be suitable for investors who are concerned about short-term volatility and performance, seeking a regular source of income and investing for less than five years. The Trust does not offer capital protection.

## Risk Warnings

The investment trusts managed by Baillie Gifford & Co Limited are listed UK companies. The value of their shares, and any income from them, can fall as well as rise and investors may not get back the amount invested.

The specific risks associated with the Trust include:

- The Trust's risk could be increased by its investment in private companies. These assets may be more difficult to sell, so changes in their prices may be greater.
- The Trust can borrow money to make further investments (sometimes known as "gearing" or "leverage"). The risk is that when this money is repaid by the Trust, the value of the investments may not be enough to cover the borrowing and interest costs, and the Trust will make a loss. If the Trust's investments fall in value, any invested borrowings will increase the amount of this loss.
- Market values for securities which have become difficult to trade may not be readily available and there can be no assurance that any value assigned to such securities will accurately reflect the price the Trust might receive upon their sale.
- The Trust's risk is increased as it holds fewer investments than a typical investment trust and the effect of this, together with its long term approach to investment, could result in large movements in the share price.
- The Trust can make use of derivatives which may impact on its performance.
- The Trust's exposure to a single market may increase risk.
- Share prices may either be below (at a discount) or above (at a premium) the net asset value (NAV). The Trust may issue new shares when the price is at a premium which will reduce the share price. Shares bought at a premium can therefore quickly lose value.
- The Trust can buy back its own shares. The risks from borrowing, referred to above, are increased when a trust buys back its own shares.
- The aim of the Trust is to achieve capital growth. You should not expect a significant, or steady, annual income from the Trust.
- The Trust is listed on the London Stock Exchange and is not authorised or regulated by the Financial Conduct Authority. The information and opinions expressed within this factsheet are subject to change without notice. This information has been issued and approved by Baillie Gifford & Co Limited and does not in any way constitute investment advice. This factsheet does not constitute an offer or invitation to deal in securities.

Further details of the risks associated with investing in the Trust, including how charges are applied, can be found by calling the number below or visiting the website.
