

## Investment proposition

The China A-shares strategy is a purely stock-driven, unconstrained equity strategy focused on investing in exceptional growth companies listed on the domestic stock markets in China (known as 'A' shares). The portfolio holds 25-40 companies listed on the Shanghai and Shenzhen stock exchanges. The portfolio is benchmark agnostic. The companies which we invest in are expected to benefit from, and contribute to, China's economic, societal and cultural development, and be capable of growing to a multiple of their current size. We take a long-term approach with an expected investment horizon of 5+ years.

Hedged share classes shown against the index in the base currency. Baillie Gifford operates a single swinging price for the Fund and, therefore, may apply a dilution adjustment to the price to protect long-term investors from the costs associated with buying and selling underlying investments that result from other investors joining or leaving the Fund. This adjustment will affect relative performance, either positively or negatively.

The specific risks associated with the Fund include:

Custody of assets, particularly in emerging markets, involves a risk of loss if a custodian becomes insolvent or breaches duties of care.

The Fund's exposure to a single market may increase share price movements.

The Fund invests in China "A" Shares where difficulties with market volatility, political and economic instability including the risk of market shutdown, trading, liquidity, settlement, corporate governance, regulation, legislation and taxation could arise, resulting in a negative impact on the value of your investment.

The Fund's concentrated portfolio relative to similar funds and in a particular geographical area or industry may result in large movements in the share price in the short term.

The Fund has exposure to foreign currencies and changes in the rates of exchange will cause the value of any investment, and income from it, to fall as well as rise and you may not get back the amount invested.

The Fund's approach to Environmental, Social and Governance (ESG) means it cannot invest in certain sectors and companies. The universe of available investments will be more limited than other funds that do not apply such criteria/ exclusions, therefore the Fund may have different returns than a fund which has no such restrictions. Data used to apply the criteria may be provided by third party sources and is based on backward-looking analysis and the subjective nature of non-financial criteria means a wide variety of outcomes are possible. There is a risk that data provided may not adequately address the underlying detail around material non-financial considerations.
